Hercules Systems, Inc.  
95 West Hills Road  
Huntington Station, NY 11746

Dear Hercules,

We have had the Hercules car wash for over 15 years and are extremely satisfied with it. The system is very reliable and continues to help our service department make our very important customers happy and repeatedly come back to us for service.

Over the years the service and diagnostics have been fantastic. We've never had any considerable length of down time. This is very important being that we are a small dealership in a remote area.

Again, we are very pleased with the Hercules System and staff and would recommend to anyone who's thinking about obtaining a vehicle wash system for their operation.

Sincerely,

*Gary Myers*
