

Dear Marty,

I am writing to thank you for the great service we have received along with our Hercules Vehicle Wash System.

In the time we have been using the system we have seen a great reduction in both the time and effort involved in keeping our fleet-clean on a daily basis.

Since the installation of our system we have received helpful assistance from the Hercules staff and it has been a great experience for us so far.

We have been pleased with our decision to purchase the system from the first day of its use; our drivers and EMT's appreciate the ease and speed at which the system operates,

I would be more than happy to recommend this system to anyone, especially in the Medical Transport Business.

Yours truly,
